

Nordic activation – How to get Mass Effect 3 to work with Nordic Xbox360s and Kinect

To activate your Nordic Mass Effect 3 for Xbox360 Kinect use, you need to change your default system Locale to "England". Please follow the below instructions to change Locale to "England".

- 1. On your console go to MyXbox, and then select System Settings.
- 2. Select Console Settings.
- 3. Select Language and Locale.

	Display Audio	Current Setting	
	Language and Locale	United States	
	Startup and Shutdown	Change your language and locale settings.	
	Auto-Play		
	Remote Control		
	System Info		
	Shutdown Dash (DEBUG)		
	🕓 Select 💶 Rack		
Seleo	ct <b>"Locale"</b>		
Selec	Ct <b>"Locale"</b>		
Selec		- Current Setting	
Selec	Language and Locale	Current Setting English	
Selec	Language and Locale		
Selec	Language and Locale	English You may have to restart your console	
Selec	Language and Locale	English You may have to restart your console for the language setting to take	
Selec	Language and Locale	English You may have to restart your console for the language setting to take effect. You can't change locale if console	
Selec	Language and Locale	English You may have to restart your console for the language setting to take effect. You can't change locale if console
